# Great cover art ..... easy with Y2M

It's never been so simple to make rich graphic cover art for your Movie and Series collections. Now with the easy to use interface of Y2M (YAMJ To Mede8er) you can make cover art and synopsis images suitable for the Mede8er. Just fill in a few details and leave Y2M to do the rest. Y2M works in a batch mode and can run your whole collection at once. The software runs on Windows PC's and requires that you have an active Internet connection in order to scrape the cover art information.

- Batch Process
- Ideal for Mede8er Video Wall artwork
- Uses YAMJ's powerful scraping ability
- Optimized for Mede8er
- Free for the Mede8er
